AF 09260 (January 2005)
UNITED STATES AIR FORCE CCAFS/PAFB

SECTION 09260

GYPSUM BOARD ASSEMBLIES
01/05

PART 1 GENERAL

NOTE: This specification is to provide inserts into
the NASA Section 09260 GYPSUM BOARD ASSEMBLIES
calling out affirmative procurement requirements for
recycled materials in gypsum board and assemblies.

1.1 SUBMITTALS

NOTE: If SD-03 Product Data already exist in the
Submittal Article, add the submittal items below to
the end of SD-03 Product Data.

If SD-03 Product Data does not exist in the
Submittal Article, insert the entire paragraph
below, including SD-03 Product Data.

SD-03 Product Data

Manufacturer's data shall be submitted indicating percentage of
recycle material in gypsum board and assemblies to verify
affirmative procurement compliance.

Total weight and volume quantities of gypsum board and assemblies
with recycle material shall be submitted.

PART 2 PRODUCTS

NOTE: Insert the subpart below as Subpart 2.1 to
describe affirmative procurement requirements.

2.1 AFFIRMATIVE PROCUREMENT

Laminated Paperboard and structural fiberboard used as gypsum board are
materials listed in the EPA's Comprehensive Procurement Guidelines (CPG) (
<http://www.epa.gov/cpg/>).

EPA's recommended Recovered Materials Content Levels for gypsum board are:

Product	Material	Percent Of Post Consumer Materials	Percent Of Total Recovered Materials
Gypsum Board	Post Consumer Paper		10-100

NOTE: If the Architect/Engineer determines that use of certain materials meeting the CPG content standards and guidelines would result in inadequate competition, do not meet quality/performance specifications, are available at an unreasonable price or are not available within a reasonable time frame, the Architect/Engineer may submit to Contracting Officer a written justification and supporting documentation for not procuring designated items containing recovered material using the Recovered Materials Determination Form.

For informational purposes, a list of known sources for gypsum board and assemblies using recycled material is provided in the EPA/CPG Supplier database at http://www.ergweb2.com/cpg4review/user/cpg_search.cfm.

Note that the Contractor is not limited to these sources. A product meeting CPG recycle requirements from other sources may be submitted for the Government's approval.

Contractor shall submit recycled material content data for gypsum board and assemblies indicating compliance with affirmative procurement.

Contractor shall submit total weight and volume quantities of gypsum board and assemblies with recycle material.

PART 3 EXECUTION

Not Used

-- End of Section --
